

This architectural drawing shows a side elevation of a building. A red dashed line, representing a section cut, runs horizontally across the top of the facade. The building features a series of windows: on the left, there are arched windows with decorative frames; in the center, there are four rectangular windows with simple frames; and on the right, there is a single rectangular window. The roofline is indicated by a solid red line. The drawing is a technical representation of a building's exterior.

This architectural drawing shows the elevation of a building facade. The structure is divided into two main sections. The left section features a large arched entrance on the ground floor and four arched windows on the upper floor. The right section is a long, rectangular wing with four small, square, barred windows on the ground floor and a single small square window on the upper floor. The roofline is flat with several chimneys and a small decorative structure on the left. The drawing is a black and white line art illustration.
